COMBINATION PLUNGER-ROLLER TYPE MICROSWITCH

NOTE:

Do not use a fastener larger than a #6 SHEET METAL SCREW or a #8 MACHINE SCREW to mount this microswitch. Forcing larger screws through the mounting holes destroys the switch and voids the warranty.

ONLY USE THE "NC" AND "C" TERMINALS IN THE MICROSWITCH.

THE SWITCH REQUIRES LESS THAN 1/8" (.005MM) OF TRAVEL TO TURN THE UNIT OFF. DO NOT USE THE SWITCH AS A DOOR STOP.
